

Development Phases

Following will be the phases/timeline of the app development:

July 22, 2020

- Confirm with all the team members about their commitment
- Finalize the app functional requirements & design
- identify the goals/features for the app challenge

July 30, 2020

- Finish the initial development for the app challenge
- Write up the testing design doc & start the implementation

August 2, 2020

- Verify all the testing results & submit the code for evaluation

After the initial development for the app challenge there will be targets that will be set & needs to be evaluated at the end of every month to make sure the goal of getting the app with all the features in our mind to be ready by December 31, 2020
